Sub: **NSCI Safety Awards-2022 scheme – open for entries**

Sir,

The National Safety Council (NSC) was set up by the Ministry of Labour & Employment, Govt. of India on 4th March 1966 as an independent, non-commercial, not-for-profit autonomous Society. Its aim is building a national movement on safety, health and environment to prevent and mitigate loss of life, human suffering and economic losses, and providing support services.

As part of NSC services, it has been operating the **NSCI Safety Awards Schemes** for organisations in **Manufacturing, Construction, MSME and Service Sectors** and gives away the awards every year. The objective of the awards scheme is to recognize and reward the organisations for their exemplary Occupational Safety & Health (OSH) performance & commitment to reduce workplace injuries, implementations of the best OSH practices and encourage continual improvements.

The comprehensive assessment process under these Awards Schemes objectively evaluates an organisation's Safety, Health and Environment systems & procedures and its performance. Therefore, participation in the Scheme provides the organisation a roadmap for continual improvements in Safety, Health and Environment.

Winning these awards gives national level recognition, heightens the prestige of the organization, demonstrates the management commitment to safety as well as boosts the morale of the employees.
